Dear reader,

In your hands you are holding a selection of comics, created for the BUND comic competition »nothing overboard«. Every year 6.4 million tons of litter is dumped into the sea, a large proportion comes from ships. Almost 70% of the litter items are plastic pieces which can remain in the marine environment for decades and even centuries to come. These items can cause a lot of harm, as marine species can become entangled and strangled in floating debris or they might die because of mistaking plastic pieces for food.

We want to prevent this harm from taking place. And despite the sheer size of our oceans and even if the huge garbage patches at sea are not visible everywhere, our shared marine environment should not become a dumping site.

Help us to keep the environment clean!

Thank you.

Liebe Leserinnen und Leser,

Sie halten eine feine Auswahl der Comics in Händen, die für den BUND-Comic Wettbewerb »Nix geht über Bord« erstellt wurden. Jedes Jahr gelangen 6,4 Millionen Tonnen Müll in die Meere, einiges kommt direkt von Bord. Mindestens 70% der Müllpartikel bestehen aus Plastik und bleiben Jahrzehnte bis Jahrhunderte in der Meeresumwelt erhalten. Dabei gefährden sie Tiere, die sich in umhertreibendem Müll verheddern und strangulieren oder Partikel fressen und daran verenden.

Das möchten wir verhindern. Denn auch wenn das Meer so unendlich groß erscheint und die immensen Müllstrudel nicht überall sichtbar sind, darf das Meer keine Mülldeponie werden.

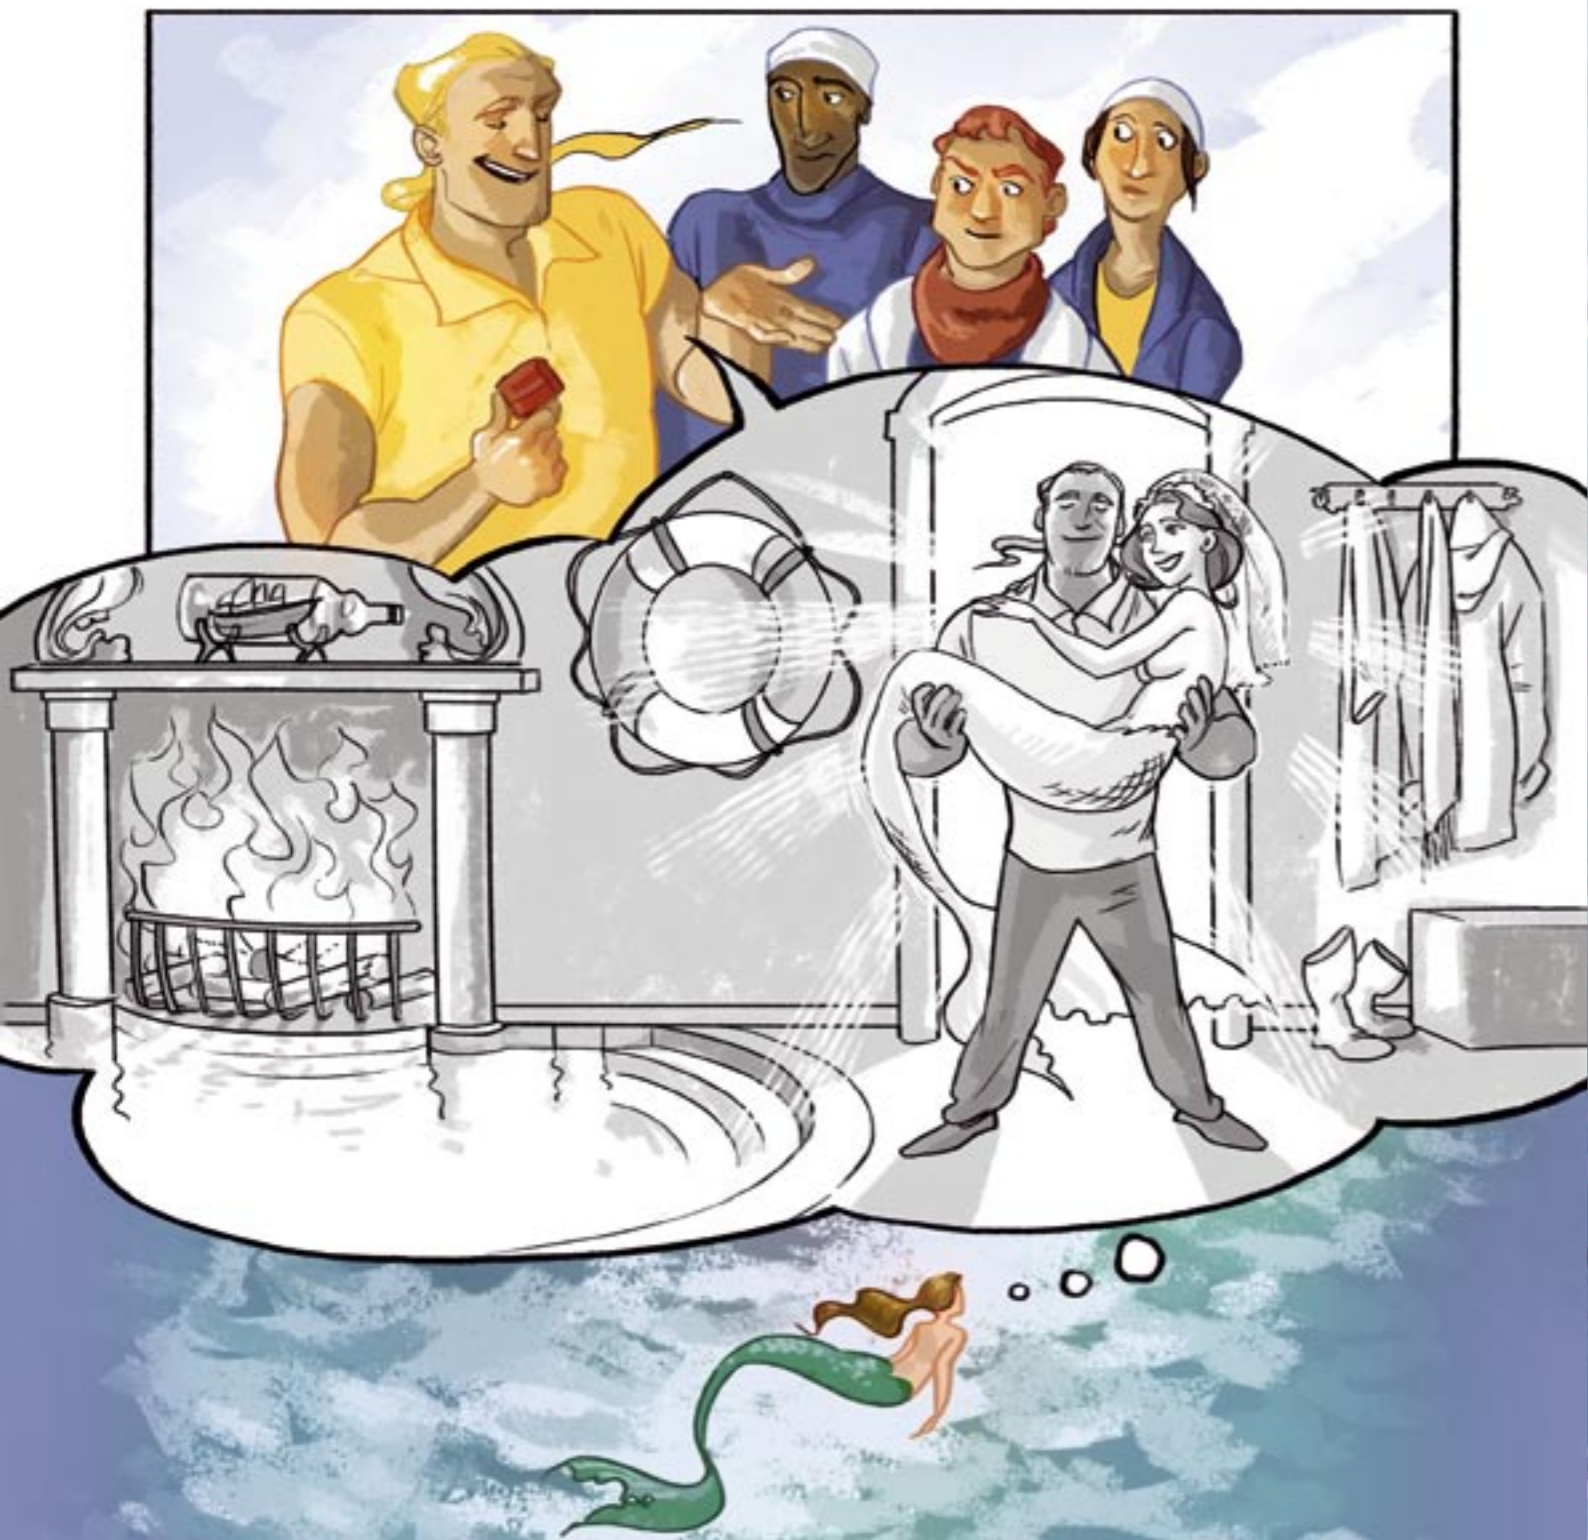

Helfen Sie uns die Umwelt sauber zu halten!

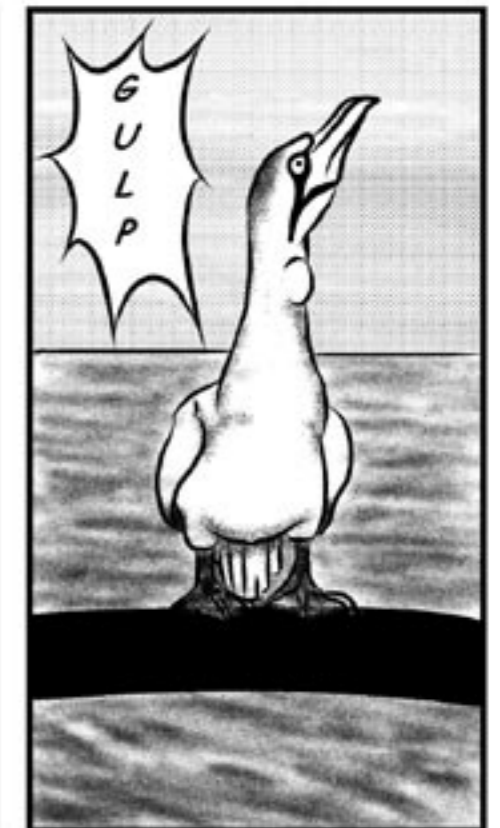

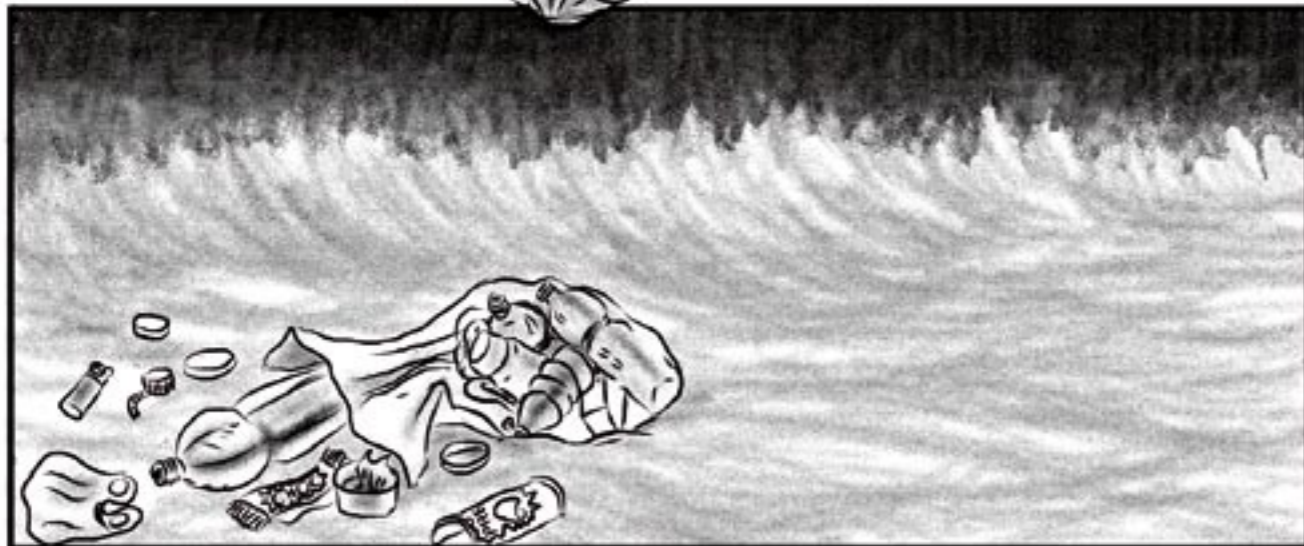

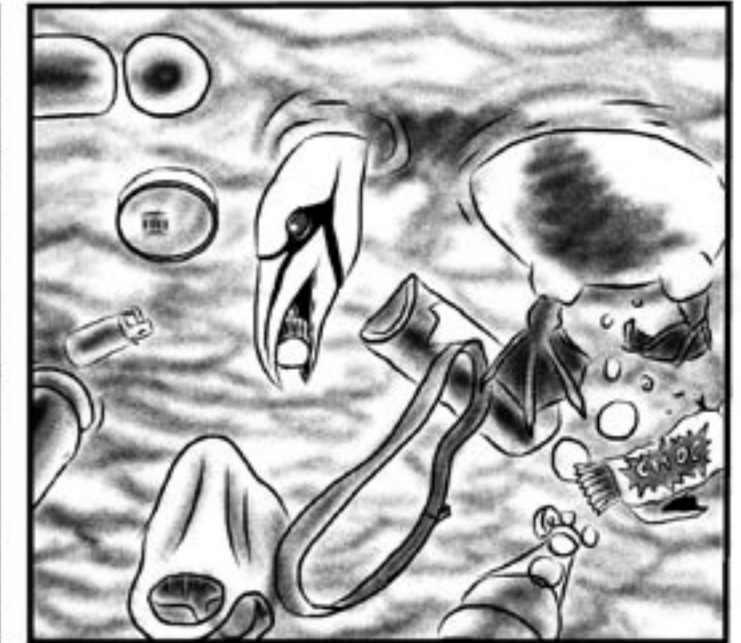

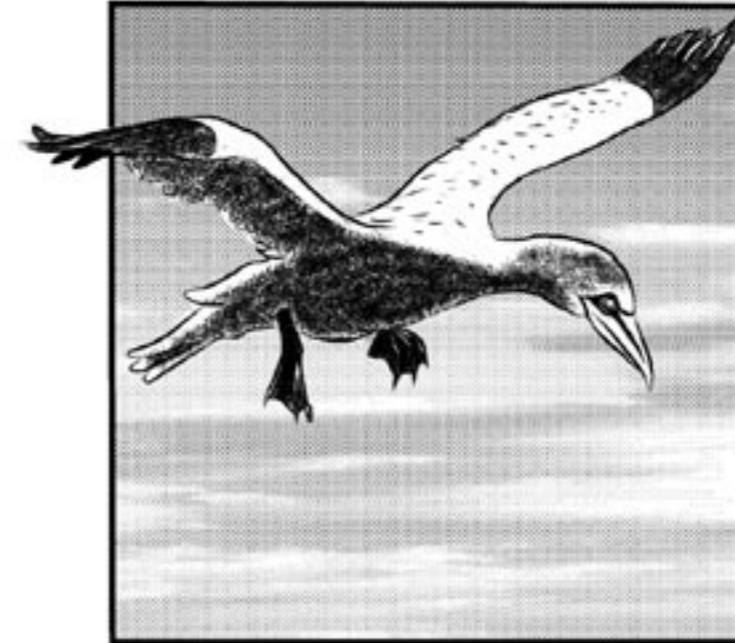

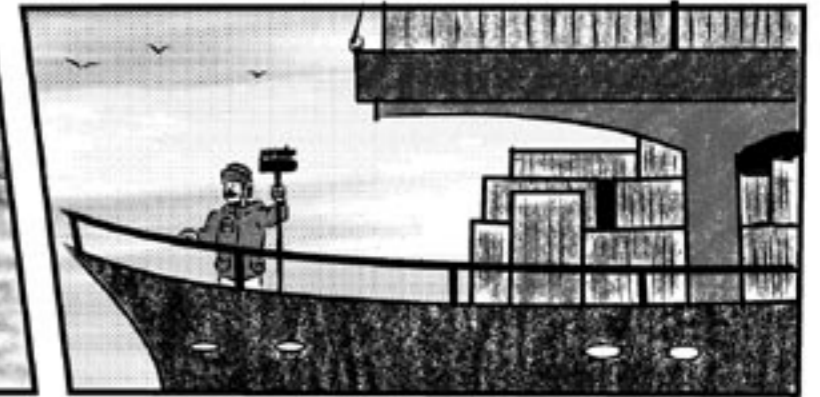

Vielen Dank.
